DETAILED ACTION

Drawings

1. Figures 1, 2a, 2b, and 2c should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-18 are rejected under 35 U.S.C. 102(e) as being fully anticipated by Migdal et al (6,205,243).

Migdal et al discloses a system and method for rapid shape digitizing and adaptive mesh generation comprises one or more illuminating sources (100, 102), one or more image sensors (118), a processor (104), the surface topography is computed on the basis of the patterned image data, the known separation between the illumination sources and the image sensors (see figures 1, 2, 5A and claim 16, lines 8-21).
